

Be Safe, Walkers and Rollers!

Use a Sidewalk/ Face Traffic

Walk/Roll Safely

Cross at Crosswalks

Beware of Driveways/ Parking Lots

Dress to be Seen

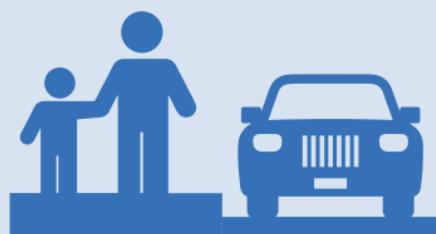

Walking and rolling are great ways to get around. It helps the planet, saves money, and is good exercise.

**TARGET
ZERO**

Use a Sidewalk/Face Traffic

If there is a sidewalk, use it! If the street does not have a sidewalk, walk on the left side of the road and face traffic to see oncoming cars and drivers.

Walk/Roll Safely

Always obey road signs and signals. Do not run, play, push, or shove one another near traffic and always put phones and headphones away when walking/rolling.

Cross at Crosswalks

Always cross a street at crosswalks or intersections. Look for cars in all directions including turning left or right. If there is no crosswalk, find a well-lit area with the best traffic view.

Beware of Driveways/Parking Lots

Watch for cars entering and exiting driveways or backing up in parking lots.

Dress to be Seen

Think about what you are wearing when walking/rolling. It can be tough for drivers to see you when it is dark, so wear bright clothes when possible. At night wear reflective clothing or walk/roll with a light.
